EDUCATION

Georgia Institute of Technology
Bachelor of Science in Computer Science
Minor in **FinTech**

Expected Fall 2027 | GPA: 3.82
Atlanta, GA

- Relevant Coursework: Design & Analysis of Algorithms, Computer Organization & Programming, Objects & Design, Data Structures & Algorithms, Discrete Math, Linear Algebra, Object-Oriented Programming, Database Systems, Artificial Intelligence, Systems and Networks

PROJECTS

Autorobotics in Construction (VIP)

August 2025 – Present

Undergraduate Researcher

Atlanta, GA

- Researching applications of VR, AI, & robotics to improve safety and learning in construction and education
- Programming 6+ interactive virtual environments in Unity, emphasizing interactivity and smooth simulation
- Engineering cross-platform VR support improving accessibility and immersion by over 75% across VR systems
- Streamlining rendering pipeline maintaining stable 90+ FPS performance across major VR headset platforms
- Building personalized AI learning assistant providing adaptive guidance and support

BuzzedIn

August 2025 – Present

Fullstack Developer

Remote

- Applied software design principles and project support to build a job-matching platform for job seekers & recruiters
- Integrated 5+ APIs, boosting user engagement over 30% through dynamic filtering and responsive UX features
- Optimized database performance simplifying calls and reducing load time improving efficiency by over 80%

Tutortle

August 2025 – Present

Lead Fullstack Engineer

Atlanta, GA

- Leading end-to-end development of location based tutoring improving tutor-student matching speed by 40%
- Implementing 4+ APIs to deliver real-time distance calculations and reducing route and time estimation by 15%
- Increased session coordination by 25% through in-app messaging allowing easy connecting and scheduling

Chime

August 2024 – December 2024

Programmer & 3D Artist

Atlanta, GA

- Implemented core gameplay systems in Unity including player movement and roguelike progression mechanics
- Modeled and rigged 7+ functioning NPCs and environment assets in Blender enriching gameplay immersion
- Conducted 50+ playtests during VGDev Fall demo incorporating design improvements based on feedback

The Known World

March 2023 – Present

Technical Director

Remote

- Reduced CPU load by 20% through optimizing UI rendering, script frequency, and resource consumption
- Coded, modelled, and animated movement mechanics increasing average playtime by over 50%
- Attracted 450+ visits from releasing short early demos during development

EXPERIENCE

Viet Home Care LLC

January 2025 – Present

Caregiver

Gwinnett, GA

- Providing nursing support including diet monitoring, mobility assistance, and technological aid
- Offering consistent emotional companionship that fosters overall well-being and independence
- Ensuring client satisfaction and comfort through attentive care and reliable communication

St. Mary's Academy

August 2020 – February 2024

Swim Instructor & Varsity Captain

Fayetteville, GA

- Led team to state-level championships for 4 years in a row (GIAA & GHSA)
- Increased member count by over 200% through effective recruitment and leadership
- Coached and mentored 30+ swimmers ranging from elementary to high school levels as captain

STRENGTHS & EXPERTISE

- Programming Languages:** Java, Python, C#, HTML, Lua, Javascript, Assembly, SQL
- Frameworks / Engines / Tools:** Django, PythonAnywhere, MySQL | Unity, Unreal Engine | Blender, Twilio
- Specialized Areas:** VR Development, Human-Robot Interaction, Game Design, AI Applications, Web Development

ADDITIONAL SKILLS & INTERESTS

- Community Engagement:** VGDev (GT Video Game Development Club), GT Swim Club, Volunteering
- Interests:** UFC, Fitness (calisthenics, bouldering, swimming), Piano (novice), XR/VR applications, Video games
- Languages:** Elementary Vietnamese & Spanish
